

A Sure Spring Harbinger

The first robin, the ground hog and all the other indications of the advent of spring have to take a back seat for the baseball fan. He is working now and you will hear him humming, out the door everywhere.

If you need any other indication that spring is near at hand in all its glory, just step around our way and look into our windows where our spring apparel display is now receiving such flattering comment from all beholders. It will start you feeling like Spring.

BUTTREY WANTS ONE MORE CHANCE

Although Dick Buttrely the Ogden boy who boxed in Salt Lake lost the decision in his four-round bout with Jack Downey, the crowd cheered him as he left the ring after the hard mill.

Buttrely said this afternoon that thought Downey won he could not beat him in the long run and that later on he expected to demonstrate this fact. He considered that Downey got the decision through being in better condition but frankly admits that his opponent won it fairly.

Buttrely fought a good fight and worked hard all the time but Downey had him in several tight places which he used his superior ring experience to obtain.

Buttrely will meet E. Wright in a ten-round bout tomorrow night at Murray and is confident that if it goes ten rounds he will win the decision.

DEMONSTRATION BY THE STRIKERS

Lawrence, Mass., March 8.—The textile workers made a big, although quiet, demonstration this morning, prior to the time for opening the mills. Ten thousand men and women crowded Essex street and the approaches to the factories were lined with pickets, but no trouble of a serious nature occurred. Five arrests of strikers were made for too strenuous picketing or disorderly conduct.

No perceptible increase in the number of employees resuming work was noted.

There is no reason why a woman shouldn't be interested in business if it is her own.

In the matrimonial game there are lots of kisses and many scratches.

CAPTURE OF THE SCALE ADJUSTER

After diligent search for a number of hours, Government Special Officer L. J. Jones of Salt Lake, assisted by Detective George Wardlaw of this city, succeeded this morning in placing in jail W. W. Reese, who was confessed to the impersonating of a government inspector of scales and measures. Reese is in the city jail and will be taken to Salt Lake as a government prisoner.

The officers learned last evening that Reese had an appointment at the State industrial school for this morning, the visit to be made for the purpose of adjusting the scales and measures used in the institution. It was planned that an officer should be at the school to represent the superintendent and Reese to make the proper inspection, but this arrangement was abandoned when some mention was made of the fellow's activities in the city in the newspapers this morning. It was decided that Reese would not visit the school and the officers were right in their conclusions.

Railroad avenues of escape were guarded. The efforts of the officers rewarded shortly after 2 o'clock when Reese was seen making his way toward the Bamberger depot. He passed the depot, however, but was placed under arrest by Detective Wardlaw before he had gone far. The officers had a good description of him and they were certain they had the right man.

Reese is a man thirty years of age and claims to have come from Portland, Oregon. He advises the officers that he is an expert scale repairer and that he assumed the government inspection business as an easy adjunct to his line of business, and finding money so easy in that rather irregular practice, somewhat neglected the regular business.

The extent of his operations are yet unknown to the officers, except that it is known he has been operating in Ogden a number of days. It is thought that Reese has been playing the same trick along the line from Portland to Ogden.

He is a man of more than ordinary intelligence and would readily pass as a government official.

His price for inspecting the weighing and measuring apparatus ranged from \$5 to \$15, a sum which he had no difficulty in collecting.

SPARKS IS A NO-STRIKE TOWN

T. F. Rowlands, superintendent of the Salt Lake division of the Southern Pacific, accompanied by Assistant Superintendent D. Hickey, who is in charge of the Southern Pacific shops at Sparks, arrived in town this morning.

Mr. Hickey says everything is running smoothly at Sparks and a full force of men is working in the shops. Mr. Hickey said further that at no time during the strike had there been any trouble at Sparks and for some time now employees employed by the company have been living up toward the stockade having been done away with nearly two months ago.

BISHOP NOT KNOWN TO BOARD

"Who is Bishop?" is still the un-solved question. Ogden. But many guesses have been made since the publication of his communication to the commissioners threatening publicity if certain violations of the law were not checked.

The general impression is that the name "John T. Bishop" is fictitious and that the writer of the article will never be known. The commissioners have had no information regarding his identity and they look on the communication as an incident of no great concern. No further official action will be taken, the commissioners state, unless the party himself is known and gives proof of his charges.

This morning the commissioners were frank to say they have no idea who the man is, or what the purpose of his communication was. "It is quite likely that the name is fictitious," said Mayor Fell, "and that the man will never be known. It is merely a passing incident and is of little concern to the board. It is likely that he exaggerated things in his letter."

"I don't know who the man is," said Commissioner Nye, "and I can't see that there is anything about the matter that the commissioners should be concerned about. The matter belongs to the police department and I guess the department will enforce the law."

"We have no idea who John T. Bishop is," declared Commissioner Browning, "and he has given no additional information as to things he complains of. There is no particular significance to the communication except that it may cause the police department to be a little more alert in looking for lawbreakers of that kind."

CASES SET FOR APRIL COURT

The trial calendar for April was considered by Judge Harris this morning. The setting of cases for the May term will be taken up April 12, which will give the attorneys nearly a month or more to prepare their cases for trial. Hereafter cases for a succeeding term have been set the latter part of the month, allowing only a few days for preparation for trial on cases fixed for hearing the early part of the next term. To overcome this and also to make it more certain that the trial calendar will be taken up in its regular order, it has been decided that cases for trial shall be set at least two weeks ahead of the time for trial.

Cases set for trial this morning in the April term are as follows:

April 3—Volker-Scowcroft Lumber company vs. Ogden & Salt Lake Railway company.

April 4—United States Manufacturing company vs. R. E. Clapp.

April 25—First National bank of Ogden vs. Sarah M. Taylor et al.

April 6—A. C. Call vs. William Murray.

April 15—Ellas Bakke vs. the Kemmerer Coal company.

April 18—James Sarkles vs. Union Pacific Coal company.

April 17—Utah Light and Railway company vs. W. L. Jeter.

April 26—Ogden city vs. O. P. Badger et al.

April 9—Mary Ann Todd vs. Zilpha J. Stephens et al.

April 15—Consolidated Wagon and Machine company vs. A. Beckstead.

April 10—Lee Greenwell vs. Esther Taylor.

April 23—Whelanwright Construction company vs. Wheelwright & Griffin company et al.

April 8—W. I. Snyder vs. Union Fuel company.

April 11—John Smalley vs. J. Stanley Dee et al.

April 23—F. Schrade et al. vs. Ogden Overhill and Shire company.

April 22—John Fuller vs. N. O. Ogden et al.

April 24—Union Pacific company vs. Amelia Stokes et al.

April 20—Ogden city vs. Wong Woo et al.

The settings covered practically the entire calendar and it is the expectation of the court that within the next two months most of the cases will be disposed of so that there will not be much delay after that time in disposing of the business before the court for consideration.

There is one case on the calendar that was not given a setting today because it was said that the attorney for it will require from three to six weeks time to try it. It is the case of the Rocky Mountain Stud Farm company against H. H. Lunt and others of Iron county. About thirty persons of Cedar City, Iron county, are interested and there will be from forty to fifty witnesses to be examined. The court could not find time for the matter in the April term so it was passed.

STRIKE FEVER IN GERMANY IS SPREADING

Berlin, March 8.—The strike fever has been coasting through the Silesian coal fields in eastern Prussia, and the Socialist, the Christian and the Polish miners trades unions, representing all the organized miners in the district, presented to the employers a demand for 15 per cent increase in wages. The government is endeavoring to find a basis for settlement of the difficulty, which has arisen in the Westphalian coal fields, but it is very doubtful whether the efforts will be successful. Even the most optimistic think that at least 150,000 out of the 350,000 Westphalian miners will declare a strike on Monday next. The mine owners already are assembling non-unionist workers to take their places.

A co-operative grocery store and meat market has been started by union members of various trades at Sioux City, Ia.

In the last twenty years, 30,000 men have been killed and 60,000 injured in the coal mines of the United States.

SUBWAY IS READY FOR TRAFFIC

Within a few days the new subway, which it has been announced would be opened so many times, will be ready for service. The floor has been put in and the walls and iron work painted so that all that remains to be done is the wiring.

A trench is being dug from a point on the outside of the board fence near the depot in which a cable will be laid for conducting the electric current. The trench will pass under the part of the depot platform and it is expected will be ready to receive the cable the first part of next week.

MEN ARE NOW TURNED AWAY

The Cheyenne Tribune of yesterday states that for the first time since the inauguration of the strike by the shop and carmen of the Union Pacific railroad, the company was compelled to refuse applications for work from car repairers, because of the fact that there were no vacancies.

During the past three days, says the Tribune, "nearly a dozen of the striking employees have returned to their old positions, and the company is daily receiving applications from others who wish to return. These applications are filed and men taken on as fast as vacancies occur."

"At Green River the entire force of strikers has returned to work, two having been assigned to positions in the last fortnight, five of them being officials of the union. A recent visitor to the city says despite the fact that with the consolidation of the Wyoming and Utah divisions a considerable number of men were transferred to the new business, conditions in Green River are better than at any time since the strike began."

"About the same condition prevails at Laramie. A large percentage of the strikers have returned to work in that city, and in all the company shops from Ogden to Omaha the officials state they are working a full force."

"All indications are that the strikers have decided to quietly return to work, and this means that the hardships and troubles incident to the walkout are practically over for the present at least."

BURGLARS IN SEARCH OF CLOTHES

Burglars entered the Nobby Sultorium last night and made away with seven bolts of goods and three suits of clothes.

The police were notified this morning and have located all of the goods and one suit of clothes in a second-hand store on Twenty-fifth street.

There are still two suits which have not been recovered and the police are making every effort to locate them, but up to noon today had been unable to do so.

HOLD WOMAN WITHOUT BAIL

ATLANTA, March 7.—Mrs. Daisie Ogle Grace, accused of shooting her husband, Eugene H. Grace, and who was at liberty on a \$7,500 bond, was re-arrested late this afternoon and confined in the jail without bail after members of Grace's family had objected to her release.

Another interesting development came late today when a warrant was sworn out by Grace against his wife demanding three insurance policies upon Grace's life, totaling \$27,000.

"Woolly Boy" and "Hercules" Clothes for Boys.

In order that you may have a larger range of patterns and styles we are now giving you your selection of either of the above celebrated All Wool Clothes for Boys. CLARK'S

IF YOU LIKE PICTURES, GOOD MUSIC

See the Oracle, Isis and Globe this week. Big crowds nightly demonstrating that Ogden people know a good show. For the sensational programs contain a horse race, a bear hunt and a bull fight. Educational people will enjoy the deep sea fish-eries and "Trapped By Wireless." Lovers of fun will be convulsed with Buster's Nightmare and the Jam Closet. Sympathizers of labor will appreciate "Tony's Oath of Vengeance," a very strong social drama, and so on, every picture is good. The music is a decided feature in each house.

Saturday will be a big day for the children at the Globe, where "Buster's Nightmare" is the child feature.

ROBIN HOOD; SEATS ON SALE

The sale of seats for Robin Hood by the Salt Lake Opera company opened this morning to a brisk business. The popular slayers will play in Ogden Tuesday night, March 12, at the Orpheum and from the advance interest taken in the buying of seats they will no doubt be met with a hearty reception and a big house.

WONG SHU NOT PROSECUTED

Wong Shu, the Chinaman accused of selling opium, forfeited \$50 bail this morning by not appearing in police court when the case was called. It is said that it was thought best to drop the case on account of the unreliability of the testimony of the prosecuting witness, Annie Wilson.

The colored woman is addicted to the use of the drug and when arrested a quantity of opium, which she says she purchased from Wong Shu, was found on her. At that time she expressed her willingness to testify against the Chinaman, but since she has become vacillating, at one time promising to testify and at another refusing to make any statement whatever. The authorities say that she is the principal witness and that it would be impossible to convict without her testimony.

LOAN AGENTS WHO ARE HYPOCRITES

Chicago, March 8.—Loan agents who let out their money at usurious rates and attend church were pictured yesterday as hypocrites by Judge K. M. Landis of the United States district court.

A defendant before Judge Landis had admitted nefarious methods in the conduct of his loan business and the court inquired of him if he attended church on Sunday.

"Yes, every Sunday," replied the loan agent.

"Well, you don't let your religion interfere with your business; you are a hypocrite," was the comment of the court.

ADDISON T. SMITH OUT FOR CONGRESS

Washington, March 8.—Addison T. Smith of Twin Falls has announced his candidacy for representative in congress from the Gem state, and has been entitled to two congressmen under the apportionment law enacted at the last session of congress. Mr. Smith has been closely connected with the Idaho delegation in congress during twenty consecutive sessions, serving as secretary to the late Senator Shoup and later to Senator Heyburn.

In a letter to Charles L. Heltman, chairman of the Republican state central committee, Mr. Smith stated that he has received assurances from party leaders all over the state that his candidacy would meet with popular favor. He states that he regards protection as the cardinal principle of the Republican party, "not only protection to American products but to American labor."

"We should not open our markets to free importation of foreign-made goods, nor should our citizens be compelled to compete with the cheap foreign labor which is crowding our labor markets in nearly every section of the country," continues the letter.

A belief in the rule of the majority is expressed by the candidate, and he pledges himself to abide by the platform of the party which will be adopted by the state and national conventions.

LITTLE MOISTURE AT NEPHI

Nephi, March 7.—The table below shows the precipitation at the state experiment station on the Levan ridge, five miles south of Nephi. It shows that there has been the smallest amount of moisture this winter of any time for many years.

Precipitation.	Inches.
September, 1911	0.75
October, 1911	0.75
November, 1911	0.44
December, 1911	0.66
January, 1912	0.36
February, 1912	0.29
Total	3.25

The foregrowers of Nephi and Saturday afternoon and took steps towards forming an efficient organization. A large number of local orchardists were present and the prospective association bids fair to become a great factor in the industrial advancement of the community. A committee composed of the following prominent fruitgrowers, L. A. Bailey, Sr., Robert Deagle and T. H. Carter, was appointed to draw up a constitution and by-laws which will be presented to the members at another meeting to be held some time in the near future.

OIL ONCE MORE ADVANCED.

New York, March 8.—The Standard Oil company of New York today advanced refined petroleum in cases 20 points to 10.10 cents per gallon and in barrels to 8.20 cents. No change was made in the bulk price—4.60 cents.

The W. D. Ferguson Adjustment Co.

JAPANESE BUYING AMERICAN ENGINES

Victoria, B. C., March 8.—Superintendent Shimoda of the Japanese bureau of railways is here en route to Pittsburgh and other steel centers to place orders for locomotives and railroad material for the Japanese government.

After visiting in Chicago, Pittsburgh, New York, attending to railroad business, he will go to Glasgow to prepare a report on modern passenger steamers for short runs before arrangements are entered into for additional steamers for service between Shimoda and Fusan. The Japanese government has completed a bridge across the Yalu river at Wiju and trains now run from Fusan to Fuldien over the Antung-Mulden line.

UNITED STATES IRRESISTIBLE

St. Petersburg, March 8.—A meeting was held tonight at the Social Workers' club to discuss what Russia will do after the abrogation by the United States of the Russo-American treaty of 1832.

Nicholas Krinunoff, a member of the council of the ministry of agriculture, in an outspoken and fearless address, said that America's action in denouncing the treaty was an unique affront to Russia. Russia must retaliate, but could offer combat only through highly cultured means, the principal of which would be to educate the Russian masses.

Regarding reprisals, he said intelligent Russians would have to continue to buy American farm machinery, despite a double or triple duty, because they could not dispense with it.

M. Krinunoff drew a picture of America's might and declared it had been gained by sound ideas, temperance, a passion for education, an abundance of skilled labor and labor's ambition to extend its knowledge. He added that the United States was irresistible, especially in the Far East.

Krinunoff is well known in the United States, having paid several visits to that country, the last in 1904.

PRISONERS ESCAPE FROM OHIO PENITENTIARY

Columbus, March 8.—Sawing the bars of the window of their room on the fourth floor of one of the buildings of the Columbus State hospital, Frank O'Neill, a penitentiary prisoner serving a life sentence for murder, and Charles Klein, who has served several terms for counterfeiting, escaped from custody today by sliding to the ground on a rope made from torn strips of bed clothes.

NEVADA CON. GETS RICHER COPPER ORE

That the Nevada Consolidated company is not entirely dependent upon the Veteran ores for high percentages of copper is evident from report from Fly to the effect that several carloads of Liberty Pit steam shovel ore recently have exceeded the average grade, values running to as high as 7 per cent copper. One steam shovel is kept at work in this pit in ore, another in operating on over-burden. At the Copper Flat section four shovels are kept at work clearing away overburden and one shovel is kept on ore.

The Veteran underground mining

"Just Say" HORLICK'S

It Means Original and Genuine MALTED MILK The Food-drink for All Ages. More healthful than Tea or Coffee. Agrees with the weakest digestion. Delicious, invigorating and nutritious. Rich milk, malted grain, powder form. A quick lunch prepared in a minute. Take no substitute. Ask for HORLICK'S. Others are imitations.

SEVEN KILLED IN MINE EXPLOSION

Merritt, B. C., March 8.—The eleven miners, imprisoned yesterday through a gas explosion in the Diamond Vale mine near here, are known to be safe and the rescuers hope to reach them soon. These men were in another level from that in which the explosion occurred. Of the nine men that level seven were killed, their bodies having been recovered yesterday; and the other two were slightly injured. The dead:

JOHN HOGG, WILLIAM HIRD, JOHN GRIMES, JOHN TEMPLETON, WILLIAM BAXTER, KELLY.

The injured:

Harry Hogg and H. Colish.

It is thought the men on level No. 1 struck a pocket of gas which exploded. The twenty men mentioned were the only ones in the mine at the time.

FATHER AND SON MEET IN PRISON

Oakland, Cal., March 8.—Father and son were united after many years of separation in the cells of the city prison here yesterday when Harry Miller, a young tailor of San Francisco, disclosed himself to Samuel Miller, a self-confessed wife murderer wanted in Memphis, Tenn.

"Father," exclaimed the young man, "I've come to the jail on a chance after reading the story of Miller in the daily papers."

"Why, it's Harry," exclaimed the prisoner, "my son."

The pair were allowed to exchange confidences for an hour.

Miller killed his wife nine years ago following a quarrel.

While awaiting the death sentence he escaped prison and became a wanderer. He says he killed his wife in self-defense.

MEXICO HAS NEW EXPLOSIVE SHELL

San Diego, Cal., March 8.—For two days and nights, according to reports brought here from Ensenada today, the Mexican gunboat Guerrero, one of the finest ships in the Mexican navy, cruised secretly off the coast of Lower California experimenting with a three-inch bombardment shell.

Today Santos Island was used as one of the principal targets, the firing being conducted from a point five miles distant. The shells are made of hollow steel and filled, it is said, with a hundred or more smaller shells, all filled with high explosives which explode by contact, the smaller charges spreading in every direction. Much secrecy was observed in making the test.

BOY'S BASEBALL ARM WORTH \$200

St. Louis, March 8.—Ten-year-old Henry Diester's baseball arm is worth \$200, according to a verdict of a jury in Judge Allen's court in the boy's \$7,000 damage suit against John Liefrier, 73 years old, a cobbler, here today.

Diester's right arm was fractured in a fall he received August 31 last, when he was running for base to beat Willie Pate, who was "it" in a game of "T-Ball." Henry alleged that Liefrier knocked him down.

Diester testified that since the injury to his arm he is unable to play baseball as before. His pitching arm tries to curve a ball the member goes back on him, he said.

WOMAN WILL FIB ABOUT HER AGE

Chicago, March 8.—The desire to be looked upon as "sweet sixteen" was brought up to Miss Caroline Davies with a sudden shock yesterday when she dropped into a downtown bank to explain the loss of her passbook.

Miss Davies came to Chicago about two years ago from Paducah, Ky., and soon afterward deposited a considerable sum of money. She did not need the money, and paid less attention to her bank book until she discovered it was missing.

At the bank yesterday when she reported it gone, she described herself as she had when she made the deposit, only she said she was 22. The clerk said there was some mistake.

Now Miss Davies cannot get her money until she remembers her age.

NEW YORK HAS WINDOW SMASHER

New York, March 8.—Miss Anna Glysmen, a 22-year-old suffragette, is under arrest here today for emulating the London suffragettes by breaking windows in a number of residences. She began her lone campaign by smashing a window in the house of an alderman to whom she announced after ringing the door bell that she was a suffragette and wanted her rights.

While the alderman was telephoning the police she succeeded in putting stones through a dozen windows in neighboring houses. The young woman will be examined as to her sanity.

WANTS BEAR RIVER CANAL BRIDGED

Brigham City, March 8.—At the meeting of the county commissioners the first three days of the week County Tree Inspector Carl Isaacson appeared and presented his report for the month of February. Among other things the report stated that San Jose scale was found in the Bear River valley as well as other infectious diseases of trees.

Surveyor Holdaway presented plans for a bridge over the Bear river canal near Riverside, which were referred to Road Commissioner Pierce, also the matter of notifying the Bear River Canal company that a bridge is needed north of Garland. Commissioner Pierce was instructed to open a new road immediately through section 16, township 13 north, range 3 west. Also instructed to collect transient road poll tax.

Present Day Laundry Methods

The modern equipped laundry of the present day turns out work that is a marvel compared with the old-time, crude, hand process. No hand laundry, not even the home woman expert, can put the perfect finish on laundry work like the up-to-date machinery of a modern laundry, such as ours.
